About me

Product Designer and Senior UX Engineer with 5+ years across consumer and SaaS products — owning surfaces end-to-end from ambiguous requirements to polished, shipped UI. I pair design systems and experimentation-driven CRO with hands-on front-end execution, so product decisions are fast to test, build, and improve. Portfolio at cxbilen.com.

Experience

Senior UX Engineer @ Efsora Labs

Feb 2026 – Present · Türkiye

Lead UX design, design systems, and frontend-ready implementation across SaaS and web flows — turning PRDs into journeys, Figma, prototypes, and dev-ready specs, and standardising a design system of **40+** components.

Senior CRO Executive @ Digital House

Mar 2025 – Jan 2026 · Istanbul

Owned CRO and UX for web and e-commerce, turning funnel analysis into prioritized A/B tests that lifted conversion **+12%** and reduced checkout drop-off **-16%**.

UX/UI Designer @ Eva

Sep 2023 – Aug 2024 · Izmir

Designed end-to-end SaaS interfaces and Figma prototypes, simplifying complex flows into clear workflows and improving task-success in usability tests by **+20%**.

Designer Project Manager @ innoscripta AG

May 2023 – Jul 2023 · Berlin

UX/UI Designer @ StudioMoco

Dec 2022 – May 2023 · Nuremberg

CRO Executive @ Hype

Apr 2022 – Sep 2022 · Istanbul

Web Developer @ İnce Fikirler

Mar 2019 – Feb 2020 · Izmir

Education

Associate's, Computer Programming @ Izmir University of Economics

2014 – 2016

Software, web, and database fundamentals — the technical base behind a design practice that ships.

Database Interactive Programming @ Ç. Altan Anatolian Technical HS

2010 – 2014

Selected Work

Looplift — AI-assisted UX experimentation & product-growth concept.

UX Sentinel — UX-to-code, design-system & AI-agent exploration.

Maestro — Web-app architecture, AI workflows & user-facing product.
